INSTRUCTIONS IN CASE OF ACCIDENTAL CONTACT OR IMPROPER USE

Contact with the eyes/skin: contact with the eyes may cause irritation;
rinse carefully and thoroughly with water;
if irritation persists, contact your veterinarian

Ingestion: in the case of irritation of a significant quantity of product, contact your veterinarian.

SUGGESTIONS FOR USE

In the event that the employer identifies unavoidable risks by other means, he/she is required to provide employees with suitable Personal Protective Equipment (PPE) (art. 77 Legislative Decree 81/08).

PPE must comply with the provisions of Legislative Decree 475/92 (art. 76 Legislative Decree 81/08).

The use of PPE provided by the employer is mandatory (articles 20 and 78 of Legislative Decree 81/08)".

The work environment must be adequately ventilated, with mechanical ventilation as applicable.

Points where vapour, gas or dust emissions, or spillages of substances, may occur, must be located in specific zones, equipped with localised suction systems or collection systems." (Title II of Legislative Decree 81/08)

DISPOSAL INFORMATION

With regard to the disposal of cosmetic products, the reference standard is Part IV of Legislative Decree 152/06 (Environmental Code), as amended.

For the purposes of disposal, non-hazardous waste from artisanal activities (empty, used bottles or containers in the case of a hairdressing or beauty salon) may be considered similar to urban waste if the municipality in question has adopted the provisions set out by article 198 of Legislative Decree 152/06 (Environmental Code), which lists the authority of the Municipalities.

According to Part III Section II Title III and IV of Legislative Decree 152/06 on water protection and the regional provisions, professional hairdressing establishments may be classified as civilian settlements whose waste water can be treated as domestic waste water and disposed of by sewer as such, as long as they comply with the regulations issued by the local authorities (e.g. municipalities and consortia) who manage the public sewer.

STORAGE CRITERIA

Optimum storage

conditions: store in a dry, well-aerated place, at a temperature of no less than 5°C, away from flames, heat sources or electrical items
